

UNITED

United, part of Euro Media Group, is the number one specialist in Outside Broadcasting in The Netherlands. United contributes to high-quality footage of numerous (international) sports and music productions, TV shows, talk shows, game shows, soap operas, cultural programmes, dramas and show programmes. As well in the Netherlands as across Europe and beyond.

Having specialised in outside broadcast productions for years now, United may rightly call itself a front-runner in innovative HD and 3D facilities in the Netherlands. United has over 400 professionals on staff, an extraordinary capacity of audiovisual equipment and 9 outside broadcast units (5 of which are HD) of international standard. All our High Definition OB's can record in HD, SD and 3D and are equipped with state-of-the-art audio facilities.

The iOne is a High Definition OB van. The iOne offers a solution for projects not requiring large outside vans. The 'i' in iOne stands for innovation, internet and interactive new media, while 'One' indicates that this sparkling new small van is the first of his type. With the iOne, television can be made in the usual way; there is simply less space in the car, and everything – audio mixer, image mixer and router – is smaller in size. The big advantage with the iOne is that a professional production can be made with less people, which could be the solution for smaller productions from industry, local or regional broadcasts, events and webcasting.

iOne

Length: 6,05 m
 Width: 1,99 m
 Height: 3,45 m
 Weight: 3200 kg
 License Plate: VD-578-X

Power
 16 Amp
 3 phase

VISION

Camera
 4x Grass Valley LDK 8000
